

## Technology Data Sheet

KCC is committed to delivering innovative technology solutions that are reliable, cost efficient and alleviate the administrative burdens associated with today's complex Chapter 11 bankruptcy proceedings.

Our proprietary platform, KCC CaseView, was built with the needs of the corporate-restructuring professional in mind. Adhering to the highest industry standards for reliability, security and redundancy, KCC CaseView organizes and provides quick access to case information and creditor data from any location at any time.

Highlights of recent technological developments include:

### **Claims Creditor Search**

Enhanced functionalities provide clients with accurate claim life-cycle information and customizable reports to view transfers, objections and trade-notice party information.

### **Court Document Search**

Expanded capabilities make searching through thousands of KCC's historical and active case documents more intuitive and allows clients to further narrow results by document type, docket numbers, date ranges, jurisdictions and other criteria.
